

Vaccination Notification

Man's Best Friend wants all of its customers to know that we strive to ensure the health and well being of each dog that stays at our facility. We check each dog's vaccination records to ensure that all pets are current with our vaccination requirements.

If your pet enters our boarding environment and we are not able to verify current vaccination records (dates and vaccine received) within a 48 hour period Man's Best Friend will automatically vaccinate your pet at your expense.

Please understand that this policy is to ensure the health and well being of your pet.

Thank you,
Man's Best Friend
