

## VACCINATION RELEASE

In preparation for your dog's stay with us, we will be contacting your veterinarian for your dog's current vaccination status.

It is important for you to realize that our shot requirements may vary from those of your veterinarian, and in all likelihood ours are more stringent. This is for your dog's safety. We require two full series of shots for dog's under one year of age. We consider a "series" to include Distemper, Parvo, and Intertrac II (Bordatella). These individual boosters aren't always given at the same time, but two of each must have been given to your dog. Dog's over 4 months of age must also have a Rabies vaccination. Rabies is required every three years. Parvo is required once a year and Bordatella is required every six months.

If your dog is in need of any boosters to meet our requirements, you give permission for us to call upon our veterinarian to update your dog's vaccinations. Any charges will be automatically applied to your account and will be due upon pick-up of your dog.

Thank you, for your cooperation in making your dog's boarding stay with us a safer and healthier one.
